EXPERIENCE

REACT/NEXT JS DEVELOPER

FtFt | Jan 2023 - present

- Led the development of the frontend for ftft.ma, utilizing Next JS, Tailwind, GraphQL, and TypeScript.
- Enhanced the website's performance and SEO.
- Quickly learned React Native and started fixing critical bugs in existing mobile applications, contributing to their development and improvement.
- Assisted and provided mentorship to interns.

REACT/NEXT JS DEVELOPER

in-House | Oct 2022 - Dec 2022

- Translate UI/UX design wireframes into code while producing reusable markup using Next JS, Styled Components and Redux.
- Elevated the product site accessibly by 11%.

PROJECTS

QURAN FOR YOU

1-month | SCSS, React JS, React Router Dom

A web app for reading and listening to the Qur'an. Implemented multiple translations and reciters for all Quran surahs, achieving a decent Accessibility and SEO score in Google Lighthouse.
